

REBELLE

COPENHAGEN

REBELLE COPENHAGEN

French for rebel, Rebelle Copenhagen refuses to believe high quality equals expensive. Our skincare staples and scented candles are affordable enough for everyday yet feel and look luxurious, drawing on the incredible powers of nature to create physical and mental wellbeing.

Rebelle Copenhagen brings a new point of view to vegan body care and wellbeing. Born from a desire to create a 100% vegan brand that doesn't compromise on quality, Rebelle Copenhagen is a game-changing collection of naturally scented products that elevate a plant-based grooming routine to new heights.

100% vegan wellbeing
essentials with natural ingredients,
for at home and on the go

With understated scents and the ultimate go-to products for an at-home spa experience and grooming on the go, Rebelle Copenhagen brings together ethical awareness with a passion for design and sustainable values. All our packaging is made with respect, love and consideration for the environment.

NOIR

With notes of ylang ylang and geranium, Noir wraps itself around you with a soothing softness. It's the ultimate 100% vegan flower power: a heady yet subtle scent that is sensual and darkly alluring without being too sweet. From nourishing skincare to cleansing hand gel, it's a floral rule-breaker.

LAITON

Cool and playful, Laiton lingers on the skin and in the air like the golden remnants of a summer's day. Zesty hesperides grapefruit is layered with the delicate scent of clouds of white jasmine, creating a dynamic fragrance.

BLANC

Opposites attract in a charming blend of warm ginger and crisp mint. Fresh and invigorating, the understated scent is an uplifting cocktail for the senses. The Blanc series consists of everyday indulgent essentials for the body and mind.

PURE QUALITY

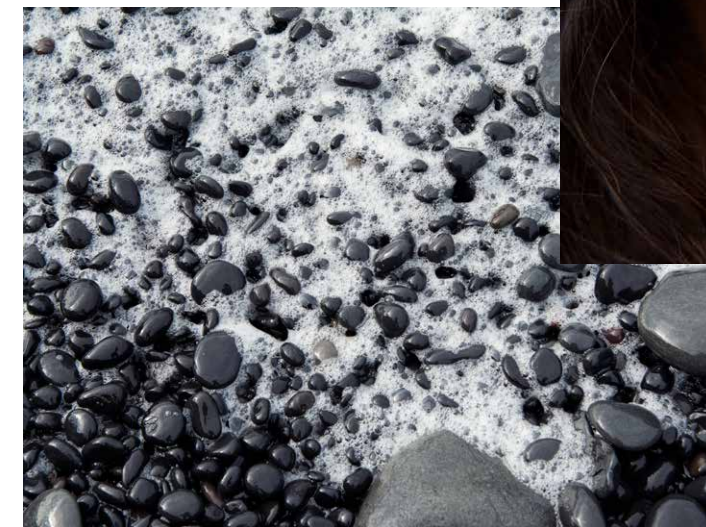

Only the finest vegan ingredients make their way into our sustainable amber glass bottles, jars and recyclable tubes. Everything we make reflects our dedication to true quality and we don't compromise on content or packaging.

We value things that work: lotions and oils are fast absorbing and moisturizing; hand soap and gels leave skin soft and clean; scented candles are long burning and linger beautifully in the room.

100% VEGAN AND WITH NATURAL INGREDIENTS

At the heart of Rebelle Copenhagen is a love of high quality ingredients. Inspired by nature, we make products that bring their proven effects to your daily wellbeing rituals. Nature-based but backed by science, our edit of pure, 100% vegan products are formulated to soothe, cleanse and nourish both body and soul.
